

Pat Golbeck

Welcome to the third issue of Missions Fest Pretoria Magazine. Once again many volunteers have labored to make this magazine possible. Various contributors submitted articles and advertisements allowing this magazine to be published without cost to you the reader. Our many thanks to all who have labored to this end.

We want to express our sincere gratitude to Central Baptist Church who are very excited to be this year's host church for Missions Fest Pretoria. We affirm their presence as well as many of the other inner city churches who are ministering to the urban center of Pretoria.

Ministry opportunities to our urban centers of the continent and indeed the world are growing at a phenomenal rate as our cities continue to expand exponentially. This year our key note speaker Jackie Pullinger will challenge and encourage those who are involved in such ministries. Her testimony of the redemptive power of God active in the very heart of Hong Kong demonstrates God's love for our cities.

The theme this year "Our Goal is the Harvest" is a play on imagery that relates to the FIFA World Cup that will impact our city and our country as they commence in June 2010. As a lead up to those games which will place our country on show to the world we need to remind

ourselves that this event needs to be viewed in the eternal perspective of the global harvest. We need to be strategic and creative in taking advantage of the opportunities that will present themselves as the world gathers here.

The question is are we planning for significant impact for Christ during this time? What strategies do we have in place for inviting many newcomers and visitors into our places of worship? Further still how do we plan as Christ's ambassadors to bless our community during this time?

These are the challenges that will shortly present themselves to us as a witnessing and worshipping community. Let us ensure that our methods primarily reflect the missional purposes of our Lord and Savior Jesus Christ.
